**NEW
FROM SACHS**

SACHS AIR SPRINGS

FOR PASSENGER CARS

New to range for quality, reliability and performance is unequalled. Now we take our damping product range even further, with the new SACHS Air Springs.

The introduction of new Air Springs product line perfectly complements our existing range of shock absorbers. Every year, more than 10 million new vehicles are equipped with SACHS shocks. Our shock absorbers are built on decades of race-winning motorsport expertise, ensuring that exceptional performance and unmatched quality go into every single part we produce for both OEMs and the Aftermarket alike.

Choose excellence in every part. Supply SACHS.

**PROVEN PERFORMANCE
DESIGNED TO LAST**

SACHS

994 907	Mercedes Benz	V-Class (W639)	N/A	04-13	Rear

Supreme comfort, safety and proven performance. SACHS Air Springs offer an innovative replacement solution for passenger cars in the Aftermarket.

- **Heavy loads feel weightless** – with adjustable ride height for smoother journeys
- **Better fuel consumption** – by reducing the vehicle height and thus lowering air resistance, better aerodynamics are achieved
- **Improved ergonomic experience** – easier to get in and out of the vehicle
- **High-quality materials** – provide better protection against the elements, for longer product lifetimes.

Excellence in every part.

BETTER TOGETHER

With the arrival of SACHS Air Springs it's now even easier to choose excellence in every part from our growing suspension range. So choose complementary suspension components from SACHS for an even better ride, whatever the conditions.

Our suspension range also includes top mounts, suspension springs for cars and service kits for cars. SACHS parts always use state-of-the-art technology and are of the highest quality, so you can offer proven performance, every time.

Top tip: In general a shock or damper is only as good as its adjacent components. That is why we advise that complementary components should be checked every time the shock absorbers are replaced.

OUTSTANDING PARTS FOR OUTSTANDING BUSINESSES

Why choose SACHS parts?

- Made to OE standards
- Premium quality
- Manufactured from high quality materials
- State of the art technology and processes
- True motorsport history and heritage built in.

Trust SACHS parts for your business

Every year, more than 10 million new vehicles are equipped with SACHS dampers and shocks. SACHS clutches are built on decades of race-winning motorsport expertise, ensuring that exceptional performance and unmatched quality go into every single part produced for both OEMs and the Aftermarket alike.

The Global Leader

Since 1894, SACHS has stood for excellence; technical supremacy for product quality, innovation and customer service. Today, nothing has changed. Our focus is as clear now as it was then. Part of ZF Aftermarket, SACHS is recognized globally as the leading brand in driveline and chassis components for cars, commercial and rail vehicles as well as agricultural and construction machinery.

Choose excellence in every part.
